

# Mahaveer Prajapat

## FULL STACK DEVELOPER

I'm a Full Stack Web Developer with over 1.5 years of experience building responsive and user-centric web applications using **Node.js**, **Express.js**, **React.js**, and **Next.js**. I specialize in crafting seamless **UI/UX experiences** on the front end and writing efficient, secure backend logic with a strong command of **SQL databases**. Passionate about clean code and performance, I constantly explore new technologies to deliver scalable and impactful solutions.

## WORK EXPERIENCE

### Software Engineer

Phoenix advanced software pvt. Ltd.

03/2024 - Present

Jaipur

Multi-site Content Management System (CMS)

- Built a scalable **CMS platform** to manage content across **14 blog websites** from a single **master dashboard**.
- Designed and implemented a centralized **master database** with secure credential management for each site.
- Handled over **100,000 articles** across all platforms, including features for **authors, tags, categories**, media uploads, and more.
- Developed the **entire backend architecture**, including authentication, role-based access control, and RESTful APIs.
- Implemented efficient **query optimization and indexing in SQL** to ensure performance at scale
- Fully built and deployed all 14 front-end websites with dynamic content rendering using **Next.js**.
- Ensured clean UI/UX for the admin panel with real-time updates and dashboard analytics

### Full Stack Web Developer

Apna College Foundation

08/2023 - 02/2024

Airbnb Website Clone

- Built a full-featured **Airbnb clone** with user authentication, property listings, bookings, and reviews.
- Implemented **JWT-based authentication** with secure login/signup and protected routes.
- Used MongoDB to model relational-like data structures (users, listings, bookings) efficiently.
- Integrated **image upload** functionality using cloud storage for property photos.
- Focused on modular, scalable backend structure with clean architecture and validation

## EDUCATION

### Bachelor of Computer Applications.

Maharshi Dayanand Saraswati University.

2020 - 2023

Ajmer

## SKILLS

## PROJECTS

Car & Drive (04/2024 - 07/2024) [🔗](#)

- Collaborated with a team to build **Car & Drive**, a car rental and booking platform.
- Designed and implemented an intuitive, responsive **user interface** with React.js and modern UI/UX practices.
- Developed and consumed **RESTful APIs** for features like vehicle listing, bookings, authentication, and user management.
- Handled full **frontend-backend integration**, ensuring smooth user flow and reliable data transactions.

Audience Cloud (08/2024 - 12/2024)

- Collaborated with a team to build **Audience Cloud**, a data-driven **EdTech dashboard** for managing leads and analytics.
- Developed the frontend using **Next.js**, integrating dynamic charts and visualizations using popular **React chart libraries**.
- Used **Prisma ORM** to model and query the database efficiently, ensuring clean and maintainable backend logic.
- Focused on responsive design and **role-based access control** for different dashboard views.
- Implemented sections for **lead management**, user tracking, and performance metrics.
